Reflecting on Refraction Teaching Guide. Grade 5. Bridging II TAKS. Science Center for Professional.

light passed through or was transmitted through. Learning new techniques for teaching is like the fish that provides a meal for today; reflective practice is the net that provides the meal for the rest of one's life. Demonstration + discussion: Reflection and refraction with ripple tank. (15 minutes) Student experiment: Ray tracing through rectangular block. The question invites an exploration of possibilities based on some scientific understanding.
